#### ABOUT

Hello, I'm Lucy, your personal lifestyle manager. My whole career has been based around luxury events, organisation, enhancing experiences and ensuring my clients have the best service possible. I have built up a little black book of amazing luxury suppliers, great brands and exciting people to work with. I specialise in organising people, logistics fill my days and nights and I get a real rush from planning and coordination. For this reason I have added 'lifestyle management' to our list of bespoke and life enhancing services. Typically our client base contact us looking for event or live music help, but also need support with their busy lifestyles. Whether it be personal admin help, booking travel & accommodation or help with home management, I have years of experience in logistics and organisation to help to make your life a better, more balanced place with more time for moments that matter.

You can usually find me with my small Chihuahua Hendrix, at gigs, boutique shops and quirky cafes satisfying my live music, jewellery, cashmere, coffee and cake addiction.

#### PRICING

Our services are totally bespoke and tailored to each client's needs. We are extremely flexible depending on requirements and are happy to offer ad-hoc support by the hour or to offer a regular service. We also offer one off project management support.
